

Marks Main Group Meetings (Fall 2019)

Meetings will be held in **Tech K140** at **6:00 PM** on the following **Tuesdays**.

Group business followed by a formal talk of about an hour with an emphasis on background for the benefit of the visiting first-year students. Overview talks outline the history and background of a project or a subgroup, followed by recent results. Our group poster session on September 28 provides an opportunity for first-year students to meet all current group members and discuss research projects.

September	25	Group open house Ryan 4003 5-7pm
October	1	Olefin Polymerization (Yanshan Gao)
	8	Organic semiconductors for opto-electronics (Antonio Facchetti)
	15	Supported Organometallics/Heterogeneous (Jiaqi Li)
	22	Field-effect transistors (Wei Huang)
	29	Lanthanide Catalysis/Hydroelementation (Jake Rothbaum)
November	5	Organic Solar Cells: Materials Synthesis/Characterization and Device Fabrication/Characterization (Liang-Wen Feng)
	12	Metal oxide semiconductor (Aritra Sil)
	19	Flexible/Stretchable Electronics (Jianhua Chen)
	26	Thanksgiving - No Meeting
December	3	Holiday Dinner (Date TBD)

A-Team Meetings

Meetings are held in the Marks Conference Room (**Tech G247**) at **2:00 PM** on **Wednesdays**.

The format will be a 60 minute chalk talk, with a heavy emphasis on background to help first-year students understand the primary goals of your research.

Oct. 2	Allison
9	Alex
16	Yang
23	Patrick
30	Yiqi
Nov. 6	Cole
13	Rachel
20	Shanfu
27	No Meeting

Solid State Lunch

Meetings are held in the Marks group conference room, **Tech G247**, at **12:00PM** on **Thursdays**.

Speakers should concentrate on background, goals, and recent results of individual research projects for the benefit of first-year students. Talks should be limited to 45 min. and can be formal or informal. You are welcome to bring a lunch. There is no meeting on the first Thursday of each month to avoid conflicts with ANSER meetings
